

Flute Reed Partnership Meeting Minutes

Oct. 29, 2007

Present: Dick Betz, Rick Schubert, Gene Pearson, & Glenn Gilyard: Dave Stark via phone

Meeting called to order at 6:05 pm

Minutes from August approved

Treasures Report: \$253 in checking account: includes 5 membership dues

Business:

1. We need a membership drive; numbers count when trying to get grants. Send a mailing to watershed owners, put on Boreal News, talk to neighbors.
2. Campground; nothing new on the legal/ownership issue. Work up a plan so we have something concrete to talk about; touch base with the Sugar Loaf Cove folks to find out how their operation works.
3. Work on brochure; get a group together to hammer out our thoughts then get back to Marie.
4. New bridge; DNR hydrologist is going to set up a meeting with new highway engineer and will let us know.
5. Capping well; will check with Ted again.
6. Question of whether we have too many projects going; we concluded no but the current priorities should be as follows:
 1. Repair damage at new bridge
Replanting at new bridge site
Brochure
Membership drive
Cap old well
Start river monitoring
Four forest/watershed classes
 2. Ditch diversions on watershed roads
Planting and/or husbandry of lands adjacent to river
 3. Work with county to identify problematic culverts on watershed roads
Highway 61 campground project

Meeting adjourned at 7:30 pm
