## JOIN TOGETHER AS A COMMUNITY IN RAIN WATER HARVESTING AND HOME COMPOSTING

**Did you know**  
that one inch of rain  
falling on a 1,000 sq. ft.  
roof harvests up to  
600 gallons of rainwater  
for use on your lawns  
and gardens without  
turning on a tap?

**Did you know** that  
when food biodegrades in a  
landfill it releases methane,  
a potent greenhouse  
gas. Methane traps 23  
times as much heat in the  
atmosphere as the same  
amount of carbon dioxide.

**CASH OR CHECK ONLY,
