Section 2. Definitions

Section 3. Property Maintenance Required

Section 4. Enforcement, Violations and Penalties

Section 5. Interference

Section 1. General

- A. These regulations shall be known as the Property Maintenance Code of the Village of Oliver, Wisconsin, hereinafter referred to as "this chapter."
- B. The provisions of this chapter shall apply to all existing residential and nonresidential premises and constitute minimum standards for premises.
- C. It is the purpose of this chapter to regulate and provide for the removal and disposal of blighting influences, debris, junk, noncombustible material, rubbish, and refuse generated in the Village of Oliver in order that the health, safety and welfare of all persons in the village may be protected.
- D. The Village Board finds that lawns on residential lots and commercial parcels of land which exceed 8 inches in length adversely affect the public health and safety of the public in that they tend to emit pollen and other discomfoting bits of plants, constitute a fire hazard and a safety hazard in that debris can be hidden in the grass, interferes with the public convenience and adversely affects property values of other land within the Village. For that reason, any lawn on a residential or commercial lot or other parcel of land which exceed 8 inches in length is hereby declared to be a public nuisance.

2. Delinquent collection fees shall be levied as a special assessment or charge against the real property, shall become a lien thereon, and be placed on the tax roll with the same effect as other Village taxes unless the Village otherwise determines after notice and opportunity to be heard.
3. The bill for such collection charges shall be sent to the person, firm or corporation from whose property or adjacent property the collection was made within 14 days of the collection.
