

## From Sumps to Storms - Tips for Managing Excess Water on Your Property

Retaining rainwater on your property is critical to preventing overflows in the larger system. But sometimes ponding in your yard is less than desirable. What to do?

Come learn how to deal with nuisance ponding or excess water on your property from sump pump discharge or challenging topography or soils.

**Sunday, May 18, 1-2 pm**    **Register to Win**  
**Engwall's Greenhouse**    **A FREE Rain Barrel**  
**4749 Hermantown Rd.**    **at this seminar!**
